

A RESPONSE TO THE VETERINARY MEDICINES DIRECTORATE POSITION PAPER ON CANINE AND FELINE VACCINES

June 2010

CONTENTS

Summary	i – ix
Introduction	2
The VMD's response	3
Background	5
Unwitting introduction to the VMD	10
Working group looking into canine and feline vaccines	14
Steady stream of vaccine tragedies	14
The SARSS scheme is a failure	17
Duration of Immunity – a scientific principle	24
PART ONE	
Animal vaccine safety	28
UK veterinary vaccine screening failure April 2010	29
Retroviruses in vaccines linked to cancer	31
The VMD has failed in one of its primary aims	32
Excuses from the VMD	33
Titre tests – the VMD ignores the Precautionary Principle	35
The VMD abdicates responsibility	36
Vaccine damage in dogs – long and short term risks	39
Immunosuppression from vaccines	40
Vaccines and cancer	40
Long-term vaccine risks exposed	44
Vaccine contaminants	46

Cancer revisited	48
Genetic damage	49
Systemic immune system dysregulation	49
SLE (Lupus)	51
Vaccine shedding	52
The creation of parvovirus	53
More on inflammation	53
Vaccine-induced neurological damage	55
Cumulative vaccine damage	59
We need to be able to trust our government's guidance	60
Vaccine risks vs vaccine benefits	62
VMD says ask your vet	62
Immunity persists for a lifetime after vaccination	62
Informed consent	63
The human vaccine safety record	65
The VMD says the smallpox vaccine is the 'gold standard'	65
Smallpox vaccine adverse events	66
Question to the VMD	78
Human vaccines – the safety record	80
No vaccine is entirely safe	81
Vaccines are Big Business	105
Vaccine adverse event reporting – a woeful picture of failure	107
VMD: guesswork and estimation	108
Recommendations re SARSS	110
Adverse events are expected	112

VMD asserts vaccine safety/complacency	115
Veterinary vaccine contamination	115
Question to the VMD re Syringomyelia and vaccine contamination...	118
Question to the VMD re improved screening	143
The vaccine process is never without risk	147
Question for the VMD: why did it not declare contamination?	147
Leptospirosis	149
Independent journalist tackles industry	151
There is a problem with leptospirosis vaccines	160
Kennel cough	173
Kennel cough vaccine can cause disease in humans	173
Dog owners should know this	175
Data: human flu vaccines ineffective	176
Withdraw the kennel cough vaccine	177
Core vaccines	178
Questions for the VMD	178
PART TWO	181
Veterinary Vaccines – A Systems Approach	183
The Animal Healthcare Industry System	184
The Elephant in the Room	185
Our dead dogs are irrelevant anecdotes	186
The animal healthcare system is dysfunctional	188
System components – the dogs	190
Animal guardians / owners	223
Breeders	225

Pet food manufacturers	226
Pharmaceutical / veterinary vaccine industry	230
Veterinary vaccine industry is ‘everywhere’ in the UK	237
Confusion marketing	238
Pet charities and insurance industry get involved	244
Celebrity sell	249
Vox pops identified	253
Why say ‘lapsed 18 months’?	255
CHC members contact local vets	256
Pet owners need proper verifiable figures	261
Chemical companies	263
Pet charities	264
Industry sponsors charities	265
Influence on consumers	268
A call for transparency	269
Microchips – the next blockbuster	269
The pet insurance industry	273
Boarding establishments	275
Groomers, pet shops, dog clubs, behaviourists	276
The Kennel Club	277
Regulators such as Defra and the VMD	279
Who will stop unnecessary annual vaccination?	279
VMD – clouding the issue	280
VMD – turning the screws on vets	280
VMD – “Yes Minister”	282

Who is the VMD?	283
VMD – there for the animals	284
VMD – there for industry	284
VMD – keen to minimise the burden of regulation on industry	286
VMD – helps bring pharmaceuticals to market	286
VMD staffing	288
Steve Dean, VMD head – a background in industry	288
Important that regulators maintain a distance from industry	292
FDA analogy	293
VMD briefs Ministers, so nothing changes	296
Steve Dean supports vaccine industry PR and speaks at industry seminars	296
Surely a regulator should keep himself at arm’s length	298
VMD/VPC conflicts of interest	298
The veterinary profession	301
BSAVA fails to end confusion	301
Vets are victims of the system	302
Vaccine industry hands money to vet students	302
RCVS says ‘we are not responsible’	304
Veterinary cognitive dissonance	305
Interview with Dr Patricia Jordan	306
Naming the Elephant – vets risk careers	310
Vets are misled about vaccination	311
Vets badly educated with regard to vaccines	314
Vets speak out against annual vaccination	315
High suicide rate amongst vets	327

The veterinary tragedy	329
Veterinary teaching establishments	330
Pharmaceutical industry hands money to colleges	330
Call for a levy on industry, not bribes	331
Government	332
Your dog is a political issue	332
David Cameron calls lobbying the next big scandal	332
Thatcher and Blair ease regulation on pharmaceutical industry	333
WHO false pandemic	336
Lax regulation	337
A healthy outlook for the vaccine industry	342
The swine flu fiasco	343
Patents run out, Big Pharma turns to vaccines	350
Vaccine shares soar	350
Swine flu may have started in a laboratory	353
Baxter unleashes dangerous vaccine	353
Swine flu vaccine reactions, as expected	356
Waste of £100 million	357
Will the government intervene to stop unnecessary pet shots?	359
AVMA: boosters give no additional protection	359
Minister strangely ducks out of debate	362
Campaigning groups such as CHC	363
Conclusion and call to action	364
Recommendations	368
